GIT

NINJA MOVES

Create a new branch and immediately check out to it

Instead of

```
git branch my-branch
git checkout my-branch
```

You can do:

```
git checkout -b my-branch
```

Force pushing a branch

Instead of

```
git push origin my-branch --force
```

You can do:

```
git push origin +my-branch
```

Use @ as an alias for HEAD

Instead of

```
# Go back two commits
git reset --soft HEAD~2
```

You can do:

```
# Go back two commits
git reset --soft @~2
```
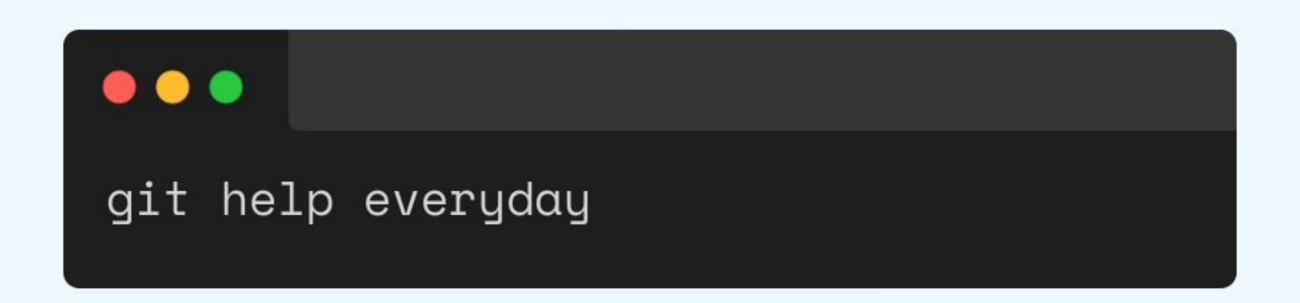

Use - as an alias for the previously checked out branch

Instead of

```
git checkout main
git pull
git checkout my-branch
git rebase main
```

You can do:

```
git checkout main
git pull
git checkout -
git rebase -
```

View a manual for most commonly used git commands

```
git help everyday
```

Thanks for reading!
